Keeping your worker’s breathing zone safe requires a capture-at-source extractor they will actually use. Designed to be moved and positioned effortlessly, the Fred JR excels at removing weld fumes, dusts, and other airborne contaminants as small as 0.5 micron with our MERV 15 rated Nanofiber filter.

The capture arm's external articulation is key to easy positioning, as smoke and dust passes through the machine without contacting the swivel and pivot points of the arm. The high suction and capture velocity developed by the Fred JR allows operators to capture and filter dust and fumes further away from the hood than competitive models.

Benefits:
• Compact, portable, 120 volt, single phase
• Capture-at-source for cleaner air
• Complies with OSHA guidelines for controlling weld fumes

Features:
• Flexible 10’ externally articulated capture arm
• 1.5HP TEFC motor producing 1200 CFM at the hood.
• 26” easy-to-service Nanofiber filter (MERV 15)
• Rotary starter with 15’ power cord & casters

Options:
• Flexible externally articulated capture arm 6.5’, 10’, or 13’
• Automatic self-positioning, Fume Tracker™ capture arm
• 3.0 HP 1800 CFM High-Static Motor [230/460/575V 3PH]
• Odor Absorption Kits
• Minihelic Gauge
• Spunbond Polyester Filter Cartridge (washable)
• After-filter module, with HEPA Filter
• Hood mounted LED light kit
