

**New patented Technology-High Performance-Low Maintenance**

The new **TFP-ELIMINATOR (TFP)** is versatile and will provide constant high collection efficiency with very low maintenance. It is your best choice for collecting mist from screw machines, machining, milling, boring, and parts washing operations.

**Prefilter**

**Turbulent Flow  
Precipitator**

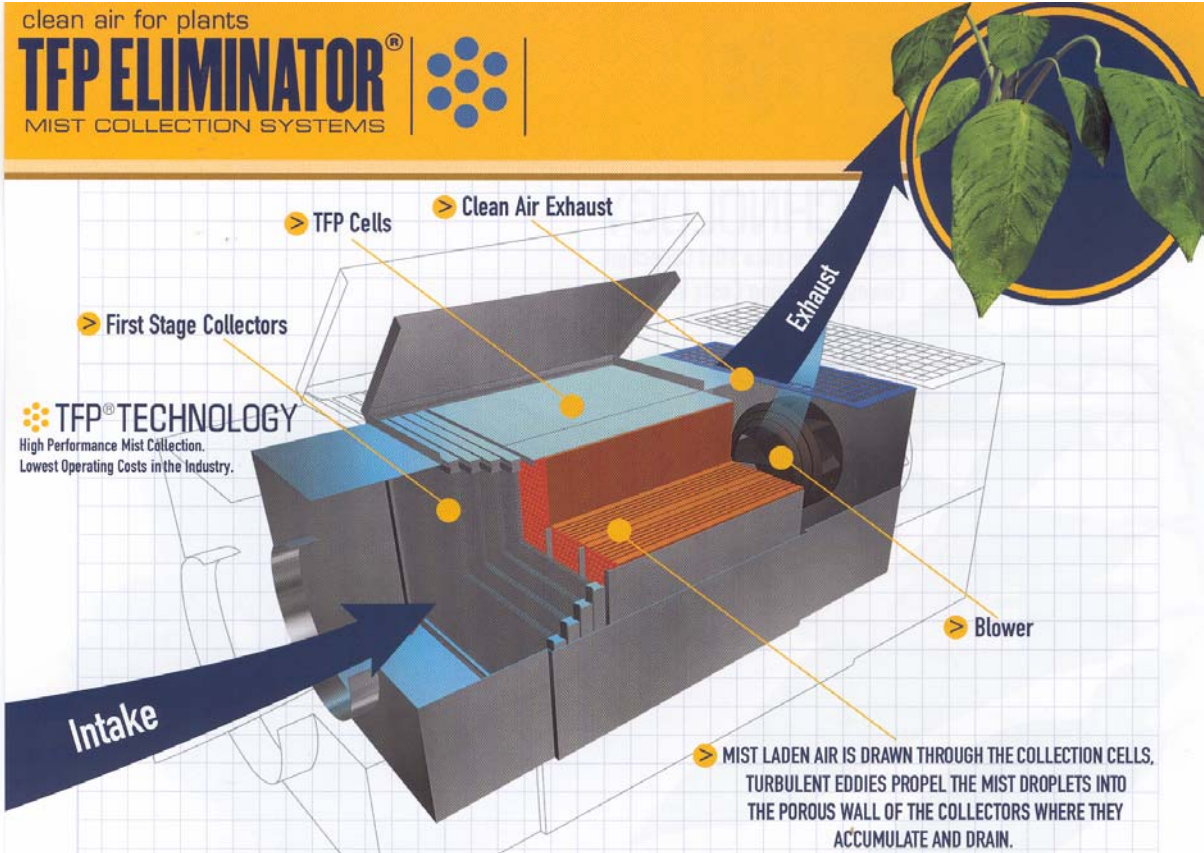

**Optional Post Filter**  
95% ASHRAE , 95% D.O.P., 99.97% HEPA

Available in sizes from 500 cfm to 2500 cfm

- Compact XCP model available for parts washers. About 11.5" shorter than XFP models and no option for a 3rd stage filter. STD with a more robust steel prefilter. See spec sheet for details
- Optional 3<sup>rd</sup> stage filters are available
- Sound can be reduced approximately 10 DB with available exhaust silencers
- Motor voltage and frequency available to match your requirement
- Applications engineering available – ask your dealer
- Available in sizes from 500 cfm to 2500 cfm
